

## **LIVE TO LOVE**

Music/Lyrics/Arrangement/Performed by: Brenda Smyly

Maybe you feel all alone  
Maybe you're far from home  
And anything you offer won't do much

Think of the ocean wide  
Has so many drops inside  
Each plays it's part, we can all start

### Chorus

When we live to love Like a hand fits a glove Help your friends See suffering end When we live to love
--

Maybe this world makes you cry  
Maybe there are stars in your eyes  
You know we're all here together

There's a strength inside  
Carries your love worldwide  
Lend a hand  
To your sisters and brothers
